Thread: [\[INTRA\]\[PREVIEW\] php bot for SQLI dork scanning](#)

Moody_KSA - March 24, 2012, 6:17 am

our lovely php irc bot thats coded from scratch by me and Mx for team intra

this is preview of one of its functions which is SQLI dork scanner using google api (sucks that this api will only allow you to search through 8 result pages)

:D

Sw1x - March 24, 2012, 6:27 am

Nice man, good to see that INTRA is making some big progress. :)

Keep it up. ^^

joomlafkr - March 24, 2012, 6:29 am

Nice work there !

Maybe you should use duckduckgo's API ;doesn't suck and it uses google tough

Handsome Banana - March 24, 2012, 6:31 am

This looks pretty beast! Keep up the great work :D

Prominent - March 24, 2012, 7:36 am

Now I know why you were too busy to answer me ._.

gatopardos - March 24, 2012, 7:38 am

Use the geoip trick to make it work from only one region if you want the code pm me..

Mx. - March 24, 2012, 7:59 am

U should have shown the other functions as well, the bing one =-D.

Prominent - March 24, 2012, 8:04 am

You should've kept this a secret for a while ;o

Greystersting - March 24, 2012, 8:07 am

This looks pretty awesome.

Moody, how long have you been coding PHP?

Odin the Wanderer - March 24, 2012, 8:36 am

very nice cant wait till its released

Mx. - March 24, 2012, 8:54 am

Ah well, just to lazy to make the vid atm, after making some tutorials, will make a video about bing
functions soon =-).

Moody, how long have you been coding PHP?
im 22 years old ive been coding since i was 15-16

gonna learn python in this couple days

(Mar 24, 2012 08:36 AM)bcrbbmx2 Wrote: [\[CITE\]](#) very nice cant wait till its released
yes yes released look for the download link in the thread :D

??¢??? - March 24, 2012, 10:41 am

Thanks for the download :D , its lovely

Spoiler [\(Click to View\)](#)
if you know what i mean

And you better reply or I'll bomb your boss.

Greystersting - March 24, 2012, 12:02 pm

How do you get the IRC to communicate with php?

Moody_KSA - March 24, 2012, 12:20 pm

(Mar 24, 2012 12:02 PM)Greystersting Wrote: [\[CITE\]](#) How do you get the IRC to communicate with php?

simple php socket check out IRC protocol wiki

(Mar 24, 2012 12:02 PM)Prominent Wrote: [\[CITE\]](#) And you better reply or I'll bomb your boss.

ok once upon a time there a was a guy then he died and they lived happely together

Zhen. - March 24, 2012, 3:38 pm

This is the shiz right there

Great work m00dy ma bro

Hulahoops - March 24, 2012, 3:49 pm

Why irc? much easier & effective if you use http could even setup a linux daemon to automatically scan dorks from a file.

Nice job though guys.

supracontra - March 24, 2012, 5:01 pm

<http://packetstormsecurity.org/files/106664/adminbot-sql.txt>

Or just use this, perl wont time out / handles sockets much better etc etc etc.

Natalie Portman - March 24, 2012, 5:11 pm

Looks good INTRA, more HQ content as per usual!

sectorzueira - June 10, 2012, 6:13 am

Where i download it ? i need much,please give me sectorzueira@hotmail.com

Glimpse - June 10, 2012, 6:21 am

This does look rather good; good too see Team Intra progressing.

demoviachex - February 28, 2015, 4:02 am

Hi all

Thanks for post :)

thanks for reply
