I just watch Immortals, really enjoyed it.
Has anyone else seen it & what did you think of it.

I saw it in theaters and i was really disappointed in the movie. Seems like they wrapped it up too quickly.

Yeah I didn't really like the ending of it either but other than that I thought it was pretty bad-ass.

I hated it. It just seemed so corny and cheesy. The action was alright, and that one nude shot of the main actress was alright as well. Everything else was just bad.

I enjoyed it.
I think the movie was nice, story seemed alright and the effects are great.

I still prefer "300" though.

It was more brutal than I expected. Had some pretty awesome scenes. Loved the introduction of Rourkes character. Really set the tone for a great bad guy. Think the first half was better than the second half.

Another great part was the fight vs the bull-man. Very intense and great build-up.

Agree the ending could have been better. All in all pretty solid 7/10

I tried watching it but for some reason it was so DARK on my tv I could never tell what was happening.
