The graphic squad Tutorial!

Step 1: Make an new file but by Ctrl+N

Step 2: Fina a render I recommend searching around Hackforums or Devian art by searching "Renders" or Planetrenders.com

Step 3: Go to file > Place and pick the render you want.

Step 4: Adding text this is up to you put any Text you want to put for me I would put "The Graphic Squad"

Step 5: The end result will be like this picked my own render and text
