Thread: [Stolen Ebook uid=1233686](#)

I'm almost positive that [this user](#) has stolen my ebook and is trying to resell it. Here is a link to his thread: <https://hackforums.net/showthread.php?tid=2353697>. This thread is nearly identical to my thread which is linked here: <https://hackforums.net/showthread.php?tid=2337695>.

Proof I can provide: A few days ago I received a pm from a user who purchased my ebook. He asked if I "minded" if he resold my ebook with another name. I said yes of course I mind, please don't. Unfortunately I deleted the pm due to limited space in my inbox. I did bookmark his profile to make sure he didn't try to sell it. Here:

^ His account was closed soon after I bookmarked it so I believe he created this new one which is linked at the top of his thread. Notice how his age is the same on both profiles and how the new one JUST joined. (Looks like he is ban evading)

He was ignoring my pm's until I posted in his thread. This is what I posted originally: Spoiler [\(Click to View\)](#) I'm not sure why but my post was removed shortly after.

That's all the information I can supply for now. Thanks for reading I guess :/
