Anyways are they used?

Only reason you're so up tight about Fleshlights is because you've got your sisters pussy to play with.

2. dont have a sister so go fuck yourself you freak.

3. Was not going ape shit I think its disgusting that people have to stick there dick in a fake pussy.

Dabeh - April 1, 2012, 7:18 am

Their a gag gift. That's how most companies sell them.

They are not an adult toy, legal status wise.

There's nothing wrong with that; It's all personal preference if the person wants to pleasure themselves at basically anytime. There's a lot more disgusting shit in the world than that.
