Thread: [\[CHEAP\] 100% Real Unique Worldwide Website Traffic \[CHEAP\]](#)

syngress - April 1, 2012, 2:59 am

Some of you may have heard of the powerful new tool I am using to harness targeted twitter traffic. I can get you thousands of views in just a matter of hours, not even.

This will NOT hurt your Page CTR, infact it will be low as ever. You will be getting WORLDWIDE or TARGETED country traffic, from mobiles, laptops, desktops, and ipads.

Each visitor will visit the site becuase it is targeted towards their preferences, google searches, and the like. This means you will have high amount of clicks, and a higher amount of views.

Best of all, I dont have a price limit! Contact me for prices!!

Test was done with two seperate links, 2nd link used is shown from the 2pm mark, and last slide.

This is perfect for adsense or bidtraffic.

Cheers!

If you are interested on giving out a test copy, then let me know. If it seems to work out well, I might purchase in high amounts.
