Thread: [NEW METHOD TO EARN \\$20 A DAY {LINK IN POST}](#)

Rapids - April 2, 2012, 1:13 pm

Now that the monetizing section has been cleaned up, I think I will share one of my easy methods. This is an easy step by step tutorial to make \$20 in the next few minutes. Please vouch to keep the thread alive guys! Thanks <http://www.mediafire.com/?3q8rnoj60w24zce>. EDIT: IF YOU ARE HAVING TROUBLE WITH ENTROPAY THEN JUST LINK YOUR PAYPAL ACCOUNT INSTEAD!!

That's an interesting way to use Super Points. Are you for sure this is still working though?

And shouldn't this work for other sites like Cashle/Points2Shop?

Yes it works great and the thing is that superpoints has 3 of those offers which means you can make like \$20 very easy. And yes it works with a ton of sites. Great easy way to earn cash. Thanks again php

Ruzlier - April 2, 2012, 1:21 pm

Sounds effective, I will try it and post if it works or not.

Penguin. - April 2, 2012, 1:23 pm

This method does not make \$20 a day anymore, entropay has changed, superpoints is a good site though.

No you can repeat this 3 times on the same account. So you can make at least \$20.

Wouldn't you get banned if you signed up for netflix three times on the same account when it's only supposed to be one per household?

What is another place I can use that I will get points?

I am going for a dominoes gift card, need atleast 2,500 points, at 800 now.

I got 10 referrals in the past few minutes. You can do the Netflix offer a few times also. I showed you in my other comment where to find them.

Hey,

Very nice method thank you. My 800 will not show up, i guess i make everything right.
Netflix is working and so on...

do you have any idea?

Hmm not sure. Usually they show up instantly.

Not really sure. If you can take a pic of it and post it here that would really help so I can see the error. Also just try creating a different one.

any help?

chris0147 - April 6, 2012, 8:07 am

I have got few questions about this as i'm interesting in doing this, how many mins can you make \$40??

Can I use VPN to make more money?

And for entropay, I will need to deposit \$20. How can I open entropay without deposit?

It may work for you but not me and other members. It worked the very first time for me but entropay was being a bitch and wouldn't work until you loaded money onto it. This method can work but you need to change the way we can put in fake info in offers for them to be validated.

v3xr - April 6, 2012, 11:52 pm

If php has his seal of approval on this, then I'm definitely game to give this a try. I'll keep you all updated with my progress. ?

EDIT:

I've never made an Entropay account before, but it's still asking me to add funds to the account before signup is complete... Is there another good website for free vcc's?

And another EDIT:

If someone DOES have another vcc resource, grab a cheap vpn like nVPN and repeat the whole process. A few bucks profit each time, plus a secure vpn account, which you could always resell.

Rapids - April 7, 2012, 6:00 am

I'm not sure why it is asking you to load \$20. It doesn't do that for me.
