No offense man, but you should know this. I did your method the first time and it worked, I got 800 super points. But now when I do other offers, they decline the entropay vcc. I tried it on 4 different trialpay offers and they all decline it. You know another way to get a vcc?

K sorry you can only earn like \$20 from it then. I'll try and update it so you can earn more.

Discussion of VCCs and things of the sort is banned.

Can you show me where it says that? Your probably right just want to confirm. But I have seen at least 3 threads today about entropy which is a vcc.

It could probably happen if you put up a BUNCH of videos with PPD downloads (assuming the videos don't get taken down).

I would've tried it but it doesn't work on my country.

A couple months ago, I used to download the ebooks here and looked for a quick method to make lots of money fast. Later, I realized how dumb I was. If you wanted to make a steady income of money, you need to work hard first. Right now I make about ~\$5/day which is \$35/wk which is about \$140/month which isn't amazing but it's pretty good. If you want, you can PM me and I'll be glad to help you get started and give you advice on what I did.

Yeah I'm working on updating it bro. For now probably the most you can earn is \$20 from that method although I've earned like \$40 total from sp.
