Thread: [\[Recruiting\] DrivenGaming \[Designers\]](#)

Zerballs - April 3, 2012, 3:01 pm

Hey,

I am currently looking for a Good graphic designer and YOU might be it. I have just started a gaming team that will start with Minecraft griefing and then eventuate into all types of gaming. We really need a talented graphic designer for the Teams Logo, Wallpapers, Signatures and YouTube channel. If you are not interested in joining our team and just want to do the designs I could refer you on our channel, Posts and eventually our website. If you want to join you will be our Head Designer etc. And if you don't have Minecraft I can provide an account.

To judge your ability please post your version of a DrivenGaming logo below :)
[\(Our Team's Thread\)](#)

I Will rate/comment on your designs and tell you whether you are in etc.

Thanks

Im really bad at designing.. but I hope you get really good ones! =D

PNT101 - April 4, 2012, 5:22 pm

\$1 for that, including the PSD.

~zander - April 4, 2012, 5:26 pm

Is this a paid job? Or is it just a position you're giving away basically?

Yes this is a position not a paid job and if you don't want a position you will be refer on everything we do.

eg. Want great quality designs,logos and wallpapers like DrivenGaming? Find our designer at [insert webpage or HF account web adress] (this could be good money in future, also this just an exampleled real version may be totally different)

Hey guys just an update and rehash.

In your design posting I am after a logo NOT a wallpaper or signature (thanks anyway) possible example a DG (could be different) :)

By judging your logos I will select a designer that will either gain a position or the 'job' (job=reference). If you get this you will hopefully design all our graphic needs and will also be in a reference or advertisement section of everything we do.

Please indicate whether you are interested in the job or the team.
Being in the team you will play with us and be Head Designer ect.
The job you will advertised YOU constantly for your efforts!
ie. We will need YouTube designs, wallpapers and much more down the track (so this is a constant job/position)
Hope this all makes sense if not feel free to ask?

Well Unless if I'm going to be paid on a work base, so every GFX I complete I get paid. I don't want a weekly thing, or anything like that. And Unless your going to pay good, I'm fine without working with you.

I don't think I have enough time nor interest in this kind of a project.

If it was payed, I would be more interested. I'm loving Minecraft/griefing but this isn't really something I would want to do, nor do have the time for.

Sorry.

Hopefully you find someone else!

If you're getting good feedback on youtube etc, I'll apply for this roll of being 'Head Designer' as long as it's not a dead team I'm interested but can't apply yet.

Well, if you want to check out some of my work, click [here](#).

Let me know if you think I'm good enough.

We are getting some really good feedback. Our coder [Element2345](#) recently finish a new client for us called relevance (just for us).

All we need is a good designer and this team is going to be hard to beat :0

I defiantly think your designs are good enough, but I would like to see you have a shot at a logo first (to be far to everyone else who wants to apply)

Good luck ?
