I vouch for this, my girlfriend is happy and i get a bigger dick now. Thanks a lot.

!Currency! - April 8, 2012, 5:47 am

Damn it, you built my hopes up that i could, with the help of your "product" as advertised, have a normal sex life once again!

My very much EX girlfriend caught me cheating and decided to get her revenge on me! I'm sure you have guessed, she took a very sharp knife to my little friend and left me with a stub of a penis. I

would have saved it, but she threw it into a blender while i lay dithering on the floor in pain!!

I ended up a recluse, and i am too afraid of going outdoors, and the thought of meeting a woman was impossible to comprehend, and i took up hacking instead to keep me sane!

SO i noticed your product and it actually aroused me a little, and the blood started pumping a little in m stump, and it actually reached 1" approx for the 1st time in years!!! THEN i realized this is just a wind up, and there is no cure for my predicament after all!!!

NOOO i just want to kill myself now :(

Circumference does not = width. They are relative to each other but aren't equal.

Education - April 8, 2012, 7:04 am

It says if it doesn't work, you can get money back. But, beside the payment thing, it says no refunds.

(Apr 8, 2012 06:51 AM)#cn Wrote: [\[CITE\]](#) Circumference does not = width. They are relative to each other but aren't equal.

I know circumference isn't width, but what I was trying to get at is, circumference DEFINITELY isn't length, nor is it anything close. An increase in circumference would directly affect the width, so yes, they are relative to each other.

!Currency! - April 8, 2012, 7:29 am

Length, Width, Girth WHO CARES? Nothing works to increase your penis, and it shouldn't even matter.. it's not the size, it's what you do with it that counts!!!

P.S. i know nothing works cos i've tried everything :(

LOL

This is just sad, and false advertisement. There aren't any ways in the entire world to increase penis size PERMANENTLY. Pills are only design for enhanced sexual performance, not growth, and or the Jelqing technique will just stretch your penis for a short time and possibly cause tissue damage but no permanent results, sorry guys of the internet it's impossible... I mean if you really think about it, if there was ONE working pill in the entire world EVERY guy would be hung like a horse.. I mean seriously..

No that's not problem, I am a little above average but what guy doesn't want to be a little bigger? we've all researched it... and I honestly feel sorry for the micropenis guys out there, at least I have something you know.. but it's fake you guys.. if this was real every guy would be hung like a horse.. simple as that. Steel and/or stone is pretty tough. The objective is not to kill, but to mane.

Yes. Packaging is not discreet in the slightest to alert females to your future engorging penis. (on in your case; your child).

May I recommend taking the pill yourself and then extracting your blood and feeding it to the child? This is a method to get the same results; albeit a lower dosage to match the child's size while you maximise benefits for your personal self.

Thanks

Do you happen to have a pill called QwikShrink? My girlfriend is always complaining on how much it hurts when I do it with her. She says she can feel it in her stomach. I can too. One day when we were late night thrusting we my dick started burning..I took it out and part of my dick skin was shirviled off. I went the the doctor he stated "Stomach Acid" on my dick. Its quite annoying, I have to use a steel container for a condom now, I guess thats the only thing that the Acid cannot dissolve.
