Senior Sherlock - April 8, 2012, 6:42 am

This anime just released its first episode last night and I found the sub available this morning :)

This anime doesn't seem like it would hold me for a very long time, however after reading the synopsis I went in with expectations to be laughing or just repulsed and everything turned out fine. I am expecting this to at the very least provide me an average unusual story with a few plot points to make me laugh my ass off.

Code One day, a strange transfer student appears before Tsubaki. Urabe Mikoto is an antisocial girl, whose hobby is just sleeping during class-breaks. One day, Tsubaki goes to wake her up and accidentally tastes her drool... And gets hooked on that!

After that, he starts going out with her and gets to know her better. Her second hobby, as it turns out, is carrying around scissors in her panties and cutting paper into flowers...

Just finished the first episode.

When he stuck his finger in there I was like "yoo" and then when she did that thing with her finger I was like "Yoo" and then when she did that thing at the end with the flood of stuff I was like "YOO" and then it ended.

Adlil - April 15, 2012, 2:32 pm

Not sure what does it for me... Not too interested in drool, or scissors, or attitude really... Her voice is interesting though, definitely something unique

Senior Sherlock - April 15, 2012, 7:38 pm

Am I the only one who found this drool thing a unique and kinda hot thing? Or am I just kinky!

Omega2058 - April 30, 2012, 6:01 pm

I've only managed to watch the first episode but I'm going to continue to keep watching it and see how things turn out. It seems to be a tad bit surprising but it doesn't seem all that bad.
