Yea IKR! Lol. Maybe, if you are desperate for money, do USER ads? Idk, just a thought, but its better than doing company ads.

Dr.Money - April 19, 2012, 4:41 pm

I can vouch this is one of the best screen cap programs out there.

Kosmos - April 19, 2012, 4:52 pm

xCap Review:

xCap is an easy to use program. All you have to do is click at least 3 times and you have a screenshot of whatever it is you choose! It's as simple as that. I use this program daily, it fulfills my daily needs, and it also makes life MUCH easier. I would recommend this to ANY of my friends.

Rating: 9.5/10

Vouch for Luxor for making this amazing and useful program. It works, guaranteed!

chiyuki - April 19, 2012, 6:42 pm

Pictures/A Video of the program in use might be a good idea. I'm quite content with my current one, so good luck with his! :)

Isolate - April 20, 2012, 12:07 pm

I guess I should get a new theme now considering iCap copied mine and changed it a little bit. Fucking faggots these days.

Dr.Money - April 20, 2012, 3:34 pm

Yours will look even more amazing if you could get a new theme. Great job with this

Blade. - April 21, 2012, 11:23 am

I didn't know, but iCap has been around for quite some time that's why I thought you copied.

I apologize, although you -rep'd me saying "iCap sucks" which I don't understand because I never said it was good? Lol.

Anyway, yeah a new theme wouldn't hurt, good luck.

Dr.Money - April 23, 2012, 6:51 pm

The new theme looks amazing. Great work and I have been using it for sometime now.

Meshed - April 23, 2012, 9:47 pm

The site is back up but not all the images have been restored. Please be patient as we try to get everything back to normal.

Isolate - May 9, 2012, 12:01 pm

xCap just reached 3k images!!!

Another huge milestone! Thank you everybody who uses xCap and helps make it what it is today. :)

Edit:It seems that there has been an issue with screen capping and some file permissions where changed I will try to get everything sorted as soon as possible!!!

:(

Okay I got the site backup and running.

But now I need to restore all the images.

Dr.Money - May 9, 2012, 4:16 pm

Congrats on 3k images dude. xcap looks amazing!

Retaw - May 9, 2012, 4:32 pm

You should add, we can edit the picture easy too..

Ex: Block out stuff, etc..

Like, so we can draw on the image to point to stuff, block names/info out..

This would be a good update. :)

Nice though.

xxZeroDev - May 9, 2012, 5:06 pm

Wow! that is really nice dude! Keep it up!

Isolate - May 10, 2012, 12:18 am
