Thread: [Please CnC my GUI \(Graphical User Interface\) | FAUX cam](#)

Faux Sho - April 9, 2012, 2:24 pm

So Hi.

This is the product of my spring break. All the buttons and commands are working. I would release it, but Windows movie player has a tendency to take ~5 second to load between each clip.

— — —

Anyways I do have a base code so I can build this in a cinch.

So I enlist you the people that populate this forum to please give me feedback & CnC on how my GUI looks and if you have any ewhore videos to PM me.

(If they were already cut and edited I would love you forever.)

So without further adieu

Akumas Deception - April 9, 2012, 2:25 pm

Your using Visual studio to make this with C#? looks neat and nice.

Zumoto - April 9, 2012, 2:26 pm

Your GUI looks pretty good but it could be better maybe if the buttons had more Pizzaz to them like glossed over or something.. But other than that it looks very familiar to another e-whore program i've seen.. Very Nice

TopHatRen - April 9, 2012, 2:28 pm

Honestly it's not going to be about the GUI it's all about how well it works I mean if it's choppy and horrible resolution on the screen people are going to say this is horrible and look somewhere else I mean don't get me wrong the show boobs and wave all that is good it's perfect it's just make sure that when it comes time that the girl on the screen isn't skipping the screen res is good and all that.

(° ? °) - April 9, 2012, 2:28 pm

Looks like a pretty simple GUI. Nice job

Faux Sho - April 9, 2012, 2:31 pm

@Akumas Ive only token Prog. I so all I know is Vb

@Jt Pizzaz lol I guess I can make them Picture box clicks instead of regular buttons

Zumoto - April 9, 2012, 2:37 pm

That would be nice. Picture buttons and maybe some nice colors :D

Faux Sho - April 9, 2012, 2:42 pm

@Top Im working on that hence, not releasing :D but thanks anyways :D

@Sub Simplicity is wonderful :D
@Jt I'll get on v0.02 lol

?????? - April 9, 2012, 2:46 pm

simple GUI which can be very effective as it's simple. Good luck.

Faux Sho - April 9, 2012, 2:50 pm

@Multiply Thanks bunches I was going for clean tight and simple. :D

Sythari - April 9, 2012, 6:03 pm

Look's very clean and nice, keep up the work :D

Faux Sho - April 9, 2012, 6:07 pm

@Sythari Thanks bunches bud ;D
?

rawr. Hate double post

Progress on v0.02 is halted as I have to study for my test -_- .Progress resumed after Thursday
