c99 .. its the best..with tons of features

edit: after seeing GYN ... i guess its similar to c99 but with more features...try it!

DreaMNauT - January 19, 2010, 2:39 pm

nice mate thanks:)

Have u also heard of NIX REMOTE WEB-SHELL v.1.0 ??

chroniccommand - January 25, 2010, 5:47 am

thanks for all of these even though i can never find sites vulnerable to shells anymore lol

p4r4d0x - January 25, 2010, 7:10 am

(Jan 25, 2010 06:47 AM)chroniccommand Wrote: [\[CITE\]](#) thanks for all of these even though i can never find sites vulnerable to shells anymore lol

actually you dont have to use it with RFI exploits only, you can SQL inject in to the website then upload a shell using admin credentials, SQL injection is for knowing user/pass...and knowing user/pass can give you access to upload files to the server...thats how it goes :D

chroniccommand - January 25, 2010, 7:14 am

oh lol 2 bad i suck rlly bad at SQLi's

p4r4d0x - January 25, 2010, 7:42 am

(Jan 25, 2010 08:14 AM)chroniccommand Wrote: [\[CITE\]](#) oh lol 2 bad i suck rlly bad at SQLi's
Its so easy, just spend some time understanding sql commands and how to manipulate them to get the info u want..if u dont have time..u can check the tutorials in this forum about sql injection...it covers everything u will need to get a user/pass without any prior knowledge to SQL

chroniccommand - January 25, 2010, 11:33 am

thanx but i already read all of them and i still can never get one -_-

p4r4d0x - January 25, 2010, 5:29 pm

(Jan 25, 2010 12:33 PM)chroniccommand Wrote: [\[CITE\]](#) thanx but i already read all of them and i still can never get one -_-

understand how does it work theoretically then study the code...read about databases and their structure and how to extract data from them...it will help u not only in SQLi but also in developing commercial/personal DB dependent applications. knowing SQL is a must whether you are going to hack or not ;) ... try to study and if u find something you dont understand just pm me and i will explain anything to you..

chroniccommand - January 25, 2010, 6:04 pm

thanks p4r4d0x. Ill read up on SQL tutorials and syntax and pm you if i need some help

lorens13 - January 26, 2010, 2:15 am

This is nice,thanks for sharing it on HF^^

DAiL0S - January 26, 2010, 5:29 am
