Thread: [\[200+\] Google dorks for SQL Injection \[200+\] \[Contains Unique Dorks\]](#)

Reseller - April 10, 2012, 8:15 pm

If you do not know what a google dork is..

It is pretty much a specific search term used in google to find vulnerable sites.

The list I am giving away happens to be google dorks for SQL Injection.

How does one obtain the list of google dorks?

I have made the list available to you using paste2.com

URL: <http://paste2.org/p/1974862>

Also, can you please post on the thread to keep it alive.

Enjoy,

I don't see anything 'unique'. There is no combination of Google Dorks, only the 'inurl'.

Thanks anyway :3
