Thread: [CDN Outage](#)

**Omniscient** - April 14, 2012, 4:39 pm

Appears a few nodes with our CDN are not serving properly. I've notified them and changed our serving to our Nginx server. F5 refresh the page to make sure it's the new content you're receiving. Hopefully I have all images uploaded correctly. :)

**v11** - April 14, 2012, 4:41 pm

The black shades userbar is messing up, but I hope this gets fixed.

**Creator™** - April 14, 2012, 4:41 pm

Yeah images weren't working a few moments ago, they're working now though.

**Scooter** - April 14, 2012, 4:41 pm

<https://hackforums.net/showthread.php?tid=2402849>

Generic smilies still there.

**Guess Who Is Back** - April 14, 2012, 4:42 pm

Thanks for notify Omniscient. I guess they changed a little bit?

I am talking about "Inbox sent items etc."

**Subscription** - April 14, 2012, 4:43 pm

I was just posting this link (<https://twitter.com/#!/HackForumsNet/status/191309247693340672>) to some of the buggy threads but thanks for making this thread!

**CAPiX** - April 14, 2012, 4:43 pm

The quality of the PM/User CP buttons aren't as good. Other than that I don't see anything wrong.

**Justice** - April 14, 2012, 4:43 pm

Awesome, i'm loving the changes already ?

**BloodFire** - April 14, 2012, 4:44 pm

So that's why HF is being slow these past few minutes. But I think its loading fine now.

Thanks ^\_\_^

**Hexicidal** - April 14, 2012, 4:45 pm

Thank you mixing up the theme a bit :D

**J0uk0** - April 14, 2012, 4:46 pm

Smilies are still here, but, everything seems to be working now.

**Tangy** - April 14, 2012, 4:46 pm

haha, so that's why I've been noticing some lag, thought it was just me >.<

**Bentley** - April 14, 2012, 4:46 pm

Thanks for the new changes ^.^ Already noticing them.

**Omniscient** - April 14, 2012, 4:53 pm

What new changes? Nothing is new.

**Legacy** - April 14, 2012, 4:55 pm

The little circle to check if there is a new post changed from purple to blue if there is a new post in there. Also, it added the default MyBB smilies in here.

I noticed the new subforum icons. Those must me right? Or I am just oblivious...

**Chubaca** - April 14, 2012, 4:56 pm

I see new bubbles for sub forums etc. Thanks Omni I love you.

I see them too. Am I missing something here? Those seem new to me ?

**McFlurry** - April 14, 2012, 4:59 pm

Theres a few images not working but thanks for letting us know Omni.

**Zyx** - April 14, 2012, 4:59 pm

I just noticed the small things that indicate if there are any new replies in a section. They look so much better, to be honest.

I like small but noticable changes like this. It makes it a little new and more neat, but yet the same old HF. :)

Yeah that is what I like the most about HF, the constant updates.

?

**Cloudy** - April 14, 2012, 5:01 pm

That's why the Stars and Userbars were messing up. I asked Soulmate and he didn't know. Thanks Omni.

**Omniscient** - April 14, 2012, 5:03 pm

Reverted. I think they fixed the issue fast. Should be okay now. Only takes me a few clicks to alter things.

**DeathBolt** - April 14, 2012, 5:05 pm

I actually liked the new post on forum icons :D

Seems like everything is running nice and smooth!

What new post on forum icons? What are you talking about?

**Bentley** - April 14, 2012, 5:07 pm

I think he is talking about these to see if there's any new posts on that forum.

But those are back to normal now.

Ohh,sorry they're gone now :/

This is what they looked like:

**Glassy** - April 14, 2012, 5:08 pm

It's always good to keep us notified. This should sum up most of the issues.

**Hexicidal** - April 14, 2012, 5:10 pm

Seems like everything is back to normal now, sweet.

**Zyx** - April 14, 2012, 5:11 pm

I actually liked the temporary subforum newpost button thing. :(

But any changes are good. It keeps the forum fresh and won't stay as the same old all the time.  
Well, atleast small stuff.

**Renowned** - April 14, 2012, 5:11 pm

Seems you have managed to fix it just fine, glad I was away for it. I hate it when HF is slow, makes me sad inside.

**Prince™** - April 15, 2012, 12:21 am

Everything is just fine right now . :)

**bugga** - April 15, 2012, 1:42 am

All looks normal to me.

HF has been running better then ever for me the last few weeks.

Yeah i guess you are right. But the problem was yesterday, the tabs were mixed up and the theme.

I honestly never noticed a thing, although I did pull an all nighter .

**McFlurry** - April 15, 2012, 7:33 am

I noticed a few changes like the smilies were a little different and the box's that say if a forum has been read were changed to circles. But everything seems to be back to normal now.

Is the "Change User" option a result of the CDN outage or the MyBB upgrade?
