<https://hackforums.net/ub3rupgrade.php>

No more worrying about it being leaked or sending me PMs to request approval.

I'm mostly done with it. I still need to code an admincp backend to approve members but that should be fairly easy for me.

For now you can apply and yes even if you were denied in the last 60 days I will allow you to apply under the new system. So you get a freebie.

You will be able to also use this system to buy gift ub3r for those who are l33t and already approved. The process will be much easier for everyone. I won't have to get any PMs and everything will be logged.

Feel free to apply now but you might have to initially wait 2-3 days for me to complete the approval process.

You will not be able to apply under the following conditions.

1. You were registered within 30 days.
2. You have a negative reputation.
3. You have less than 100 posts.
3. You have a warning level greater than 0.

I'm sure more of this add on will be tweaked. So please be patient if over the next week some changes are made.

Thanks.

0_0 - April 14, 2012, 8:29 pm

I just applied, hope I get accepted for it

Ooh, I'm 20 warning, I am f0k'd. :D

Sol Yurick - April 14, 2012, 8:29 pm

Great to see this is now up, great work Omni!

Grin - April 14, 2012, 8:29 pm

Good job Omniscient. wasn't expecting it so soon. :D

.Blank - April 14, 2012, 8:29 pm

Yay!

I can get ub3r without having to apply :3

first!

Thanks omni.

F?y - April 14, 2012, 8:30 pm

Great new edition great way to stop it from being leaked

1700block - April 14, 2012, 8:30 pm

Did an outstanding job sir Omni. This will probably make it much simpler.

NitroDemon - April 14, 2012, 8:30 pm

Looking good, I saw this on your twitter and was impressed.

Soulmate - April 14, 2012, 8:30 pm

I did too, do you know if Omni actually checks the account?

Pr?digy - April 14, 2012, 8:30 pm

"You will not be able to apply under the following conditions.

I figured since I have a warning level greater than 0, I would apply and see if it let me...It did. Well this stinks.

You might want to fix this!

Zanelot - April 14, 2012, 8:30 pm

Glad to finally see that it's up.

Now I can't wait to see what you have in store for us on the 5th year anniversary.

Vexna - April 14, 2012, 8:30 pm

Glad to see this. Great work, once again.

Nostre - April 14, 2012, 8:30 pm

Looks fairly neat and well done. This should slow down your PMs as well.

I'm almost positive you will still be receiving PMs regarding the Ub3r link though..

EDIT:

By the rule "You have a negative reputation", does this mean they are in the negatives or they cannot have a negative reputation on their page even if they are in the positives?

Prince™ - April 14, 2012, 8:30 pm

Now there is going to be much more ub3r members on Hack Forums .

Insidious - April 14, 2012, 8:31 pm

Omni, I'm not sure if you'll read this but I was accepted for ub3r before you implemented this new system. Does this mean that I will automatically be accepted with the new system or how will that work?

Thanks,
~Insidious

Bentley - April 14, 2012, 8:31 pm

Oh this is nice. Time to gather monies for uber.

Pretty sure he does. Didn't he say he spends hours a day checking accounts requesting to be ub3r + replying to the PMs?

Hexicidal - April 14, 2012, 8:31 pm

I applied literally right before this post was posted, thank you for doing this. Looking forward to see what else you have in store!

Cloudy - April 14, 2012, 8:31 pm

I was waiting for this post. I saw it on the twitter and Try made a thread about it.

He does check the accounts, he did this to cut down on the time of Ub3r requests.

Obviously, Ub3r pow3r, what else would it be?

Positive - April 14, 2012, 8:32 pm

I definitely thought your twitter was stolen when I saw it said "leaked."

Anyways, we will see a lot more ub3rs now.

So does this mean you are upgrading P0W3R soon?

Insidious - April 14, 2012, 8:33 pm

(Apr 14, 2012 08:30 PM)Soulmate Wrote: [\[CITE\]](#) I did too, do you know if Omni actually checks the account?

He most certainly does. I applied twice before finally being accepted on the older system. I'm sure he'll review each account just to make sure there's nothing that would cause him to go back on this new system's decision.

Cody - April 14, 2012, 8:33 pm

Good job, at least it takes a load off of work for you ans as well as others.

I actually think less ub3rs will be around because of the new price.

Soulmate - April 14, 2012, 8:33 pm

I just found kind of a flaw, messaged Omni it hopefully it can be solved.

When I applied, I checked back a few mins later and I was at the ToS page again instead of telling me to check up on it.

Ziexxx - April 14, 2012, 8:33 pm

Well this will make the system a little more streamline.

Question:

So even if we were approved for Member > Ub3r upgrade prior to the change, we are now required to buy L33t then Ub3r?

EDIT:

Answered by Omni later in the thread.

Skrille?x - April 14, 2012, 8:34 pm

I applied before I read this post, I got the link from twitter, and I have a 20% warning level, will I get in trouble?

Hexicidal - April 14, 2012, 8:34 pm

I applied, and I check it again refreshing it just for fun and I return to the reapply screen again.

Should I reapply or wait...?

Grin - April 14, 2012, 8:35 pm

When you say you have "a" negative reputation, would that be you have "a" negative report? Or just one "electron"?

Vivacious - April 14, 2012, 8:35 pm

Well... We are going to have a lot more red apples going around.

Blad?s - April 14, 2012, 8:35 pm

Wow, this is a great improvement, I am really happy that you did this. Thanks!

bugga - April 14, 2012, 8:36 pm

Looks like you will be freeing up some of your day, will be a welcome change I'm sure.

One question, will there be like an auto response to members who apply ? I usually ask for members to forward me your PM as proof before I pay.

Control Panel - April 14, 2012, 8:36 pm

lovely now it is easier for you and all of us

Omniscient - April 14, 2012, 8:36 pm

Quote:I'm almost positive you will still be receiving PMs regarding the Ub3r link though..
But a quick canned response is all I will respond with.

Quote:Now there is going to be much more ub3r members on Hack Forums .
Actually probably less. No reason to think that adding more restrictions and increasing the price will have more ub3r members. That's absurd. It's just going to be a simpler process for those who

apply.

Quote:Omni, I'm not sure if you'll read this but I was accepted for ub3r before you implemented this new system. Does this mean that I will automatically be accepted with the new system or how will that work?

You will need to apply again.

And 1 sec..have bug. :(

Grin - April 14, 2012, 8:36 pm

Also, what about the 60 day limit? That will be added, yes?

Thrust - April 14, 2012, 8:37 pm

2. You have a negative reputation.

What do you mean? We need to have 0 negative reputation?

Or do you mean "You must not be in negative reputation"

(Apr 14, 2012 08:36 PM)Grin Wrote: [\[CITE\]](#) Also, what about the 60 day limit? That will be added, yes?I'm assuming he already has.

"If you are denied you cannot apply again for 60 days."

(Apr 14, 2012 08:36 PM)Control Panel Wrote: [\[CITE\]](#) lovely now it is easier for you and all of us Hopefully it'll keep PM's off his shoulder.

ALT+F4 - April 14, 2012, 8:38 pm

Same as above question ^ beat me to the punch.

(Apr 14, 2012 08:29 PM)Omniscient Wrote: [\[CITE\]](#) 1. You were registered within 30 days.

2. You have a negative reputation.

3. You have less than 100 posts.

3. You have a warning level greater than 0.

So if someone -rep's say like this:

Code Nyx- (-1174) - Last updated 11-03-2010, 10:21 AM

Negative (-3): negating my -repsI would not be able to upgrade someone, or is it if "they" have the -rep I can't upgrade them. I tried entering a couple names and kept getting:

Sorry you cannot upgrade USERNAMEHERE. Please read [Help Docs](#).

Zain - April 14, 2012, 8:38 pm

Glad to see you've included a way for warning levels to have more of an effect on users. Hopefully this new application process should free up some of your time for other things.

Crab - April 14, 2012, 8:38 pm

Nice new system Omni, makes it easier for all of us :).

Omniscient - April 14, 2012, 8:39 pm

Your total reputation must not be in the negative. This is just part of my automatic denials preventing application. I will review reps and other parameters more closely once you're applied in the queue.

McFlurry - April 14, 2012, 8:39 pm

Nice work Omni. This will save you a lot of time and stress. But as Grin said won't members be apply to purchase Ub3r even if they were denied and before there 60 day limit?

Phytrix - April 14, 2012, 8:40 pm
