Thread: [How to get static music player?](#)

Darkwin - April 18, 2012, 7:24 am

Hello all i was hoping someone could pls. let me know how i could make a bar on the footer/header of the site with a music player that continuously plays music even when users go to the next page. I was told i could achieve this by using an iframe but not sure, can someone pls. let me know? thanks!!?

If you still need help i could help you with this :), i was using this about a week ago.
Send me a PM bro.
