Thread: [pasteBin Uploader With captcha Solver. *SRC*](#)

DragQueen - April 18, 2012, 11:37 am

as you can see [Sparkie](#) make a c# pastebin uploader
but we still have this captcha problem untill Fafaffy [solve it](#)
so why not make program that do both of them.
upload and solve Captcha ?

I'm super paranoid of getting infected. So could you put a virus scan on here?

Why not just download the source and compile it yourself, then?

Fafaffy - April 18, 2012, 8:32 pm

Hey, someone made this (Good job)

But can you do me a favor:

In respect for pastebin, please don't make it be able to mass-upload, or multi-thread it. It'll defeat the purpose I made the captcha cracker for.

Oh, I'm not saying you did it already, I'm saying, if you're going to update it, please don't include that :P

Hubert - June 15, 2012, 11:03 am

hey i know that this is gravedigging but does this still work? i opened the program and tried pasting something but it said the program has stopped working

BaussHacker - *June 16, 2012, 2:54 am*

They had a new captcha not too long ago, so you'd need to modify it.
