Hello HackForums,

Here is a tutorial on making a simple form like this:

[img]http://img264.imageshack.us/img264/7431/thisp.jpg[/img]

To this:

[img]http://img522.imageshack.us/img522/8305/tothis.jpg[/img]

Here goes:

Design

1) Open Visual Basic 2008>Create Project>Windows Form Application
Name it: Custom theme.

2) Set the properties of Form1 to this:

BackColor - Black

FormBorderStyle - None

Opacity - 97%

StartPosition - Center

3) Add two Picture boxes and add these pictures to each of them:

PictureBox1 -

[img]http://img522.imageshack.us/img522/4282/minimize.jpg[/img]

PictureBox2 -

[img]http://img190.imageshack.us/img190/2086/closeyg.jpg[/img]

Code

Imports:

Code Imports System.Drawing.Drawing2D

1) Double Click PictureBox1 and add the following code:

Code WindowState = FormWindowState.Minimized This minimizes the form.

2) Double Click PictureBox2 and add the following code:

Code Me.Close() This closes the form.

3) Below the code you just added, write this:

Code Private Sub Form1_Paint(ByVal sender As Object, ByVal e As

System.Windows.Forms.PaintEventArgs) Handles Me.Paint

Dim rec As Rectangle = New Rectangle(0, 0, Me.Width, Me.Height)

Dim myBrush As Brush = New Drawing.Drawing2D.LinearGradientBrush(rec, Color.Black, Color.Navy, Drawing.Drawing2D.LinearGradientMode.BackwardDiagonal)

e.Graphics.FillRectangle(myBrush, rec)

End Sub

LOL, do you mean the "Please Reply" image?
If yes, then may I use it?
If no, what images are you talking about?

sucks.....

and everyone who says nice tut are noobs

BY the way your avatar is good.....

--([S7N-])-- - May 2, 2010, 6:11 am

adiiforu, I don't care what you say. I felt this GUI to be nice at the time of writing and felt like sharing. And thanks for the avatar compliment, but that doesn't change anything.

KillYou! - May 2, 2010, 6:21 am
