Introduction

Hey guys this is my guide on how to e-whore like a pro! This guide will increase the chance of the horny bastard actually falling for you! Hope you enjoy it!

Requirements

E-Whore Pack

1 Desired Girl

A facebook for the girl you choose

Crap Loads of friends

[

How do I do it?

Firstly you need to download a e-whore pack. There are plenty here on hackforums so it shouldnt be hard. Once you have downloaded an e-whore pack, choose 1 girl from the pack and get all her video and pictures. Once you've done this, you need to name your girl. e.g. Alice LuvsYooh or Stephanie Smith. Once you have done this you need to sign the girl up for facebook. Make sure you use a dummy email. Now once you have signed the dummy facebook up, start adding people! I recommend you add students at a school or what ever, make sure you get 300 facebook friends and over. Once you've done this, like a couple of pages, post a couple of status' and you're good to go.

Okay, I've done that. Now what?

Well now you need to find your victim. I recommend using a chat service where you can find horny old men such as Omegle.com etc. Make sure you use text chat, if you have manycam and if your e-whore pack came with gifs and videos, you can use video chat. Firstly introduce yourself. Talk like normal girl and stay 'feminine'. DO NOT TALK HORNY CAUSE THEY WILL SNIFF YOU OUT. Just stay feminine and act like a normal girl. After about 5-10 minutes end the conversation. But before you go ask the man if he has facebook and if he wants to add you so you can keep in touch. Obviously he'll say yes. Link him to your dummy facebook and add him. Also make sure you say "Oh ive got to go to the vet, my dogs sick :(" or what ever reason you're going to ask him for money. In about a few hours contact the man asking him for a \$5 donation for your dog, and post a facebook status about it too! Say you'll take anything from itunes to paypal aslong as you can get raise some money. If the man falls for it, he'll send you money and boom. You just e-whored.

Must Read!

To simplify the last part of this guide further, read this:

You: Well ive got to go now, ive gotta take my dog to the vet, hes been really sick lately so ive got to get him checked out.

Stranger: Oh okay thats a shame :(

You: Yeah :(Do you want my facebook so we can stay in touch some time?

Stranger: Sure! Name?

You: Jane Smith

Stranger: Added!

You: Okay thanks! Bye now xoxoxo

Chat has been disconnected

A few hours later...

You: Hi sorry to bother you, i found out my dog will need to undergo an operation and i dont have enough money

Victim: Oh thats tragic

You: I was wondering if you could help raise some money for him, ill take anything from itunes cards to paypal, im really desperate. I love him so much and ive had him for near 2 years.

Victim: Yes ofcourse, paypal email?

You: smdhornybastard@hotmail.com

Victim: Okay im sending you \$10

And thats my guide on how to e-whore like a pro. Hope you liked it!
