thanks mate i think its working but theres something wrong with the captcha
am i the only one havin this prob?

Dimeblade - January 24, 2019, 2:24 pm

you're lying. You cannot unlimited msg to any carriers. I am sure not even 100 msg can be done .
If can not 500-1000 can be done. Title is deceptive

This guy doesn't even know what he is talking about. He thinks that he is a good hacker now just because of the 500+ rude and unquestionable posts he has made. Ignore him and keep doing what you're doing.

Fyi, it is possible to send any amount of messages to any country and to any service provider except those who have banned message bombarding or flooding from blacklisted numbers.

Lol I never say I am good hacker LOL.

It is possible to send sms in any amount but you gotta pay for it.

You cannot send it for free unlimited.

Good god where do you even come from ?

I am myself getting sms gateways and I do know what I am talking . If you want to prove otherwise please show unlimited free sms gateway site ?

Please do show me.?
