This is looking great, thanks for this :D

SIM-747559 - April 21, 2012, 11:49 pm

Wasn't there one of this uploaded the other day? Still a great job but was just wondering if this was an update of the one I got the other day.

EKNOZ - April 21, 2012, 11:56 pm

Looks Very Nice and Good

I Downloaded It To Look At Themes :D

Meerkat.? - April 22, 2012, 1:05 am

Looks nice, but there's a lot of these programs already. Also, you did not ask for permission to use my theme in your app. I'm fine with it, but I'm not sure wether all other theme creators are happy with this...

L0L123 - April 22, 2012, 1:15 am

Damn looks amazing, thx VODKA :) :) :) :) :)

idb. - April 22, 2012, 11:39 am

So this is the 4th one of these released on HF. How'd you come up with this unique idea?

I don't see any.

Also, this was made April 22nd. How do you know there weren't any of these back then?

The only one I know that was even released back then was mine? Lol. This guy. I've seen maybe 3 in total, ever.

bearpig - December 22, 2012, 5:26 pm

Could I get the DL for this? Looks awesome

Gambino - December 22, 2012, 5:47 pm

@PrOFoOX your PM is full:

I don't have an animated screenshot of me doing it. But all you have to do is drag the theme .vb file into your solution explorer, and run the program. On your toolbox you'll see at the top of it there will be a list of controls.

Or you can copy and paste the code from the .vb file and put it into a new class in your project and run the program.

Can't find?

Repeat step #1.

cool program, do you think you could add in an options area someplace to switch from that initial option of if you have a good computer or not, I accidentally clicked the wrong option, and I plan to use your program a lot so I'd like a fix for that if possible.

also here is some of the themes I had on hand maybe some of them you might have not added yet there is like 35 or so.. <http://www55.zippyshare.com/v/61001423/file.html>

Currently, there is a way to change that option. At the top left corner of the program you'll see a gear. Click that and you'll be prompted with a dialog options form. There you are able to uncheck that option.

All those themes are in the program.

There will be another update this month or next.

Vextiger - March 16, 2013, 11:47 pm

Alright cool didn't notice that gear, I also have been working on editing few themes I might share them with you once I finish them up.
