First 5 people who reply to this I will do one of their graphic requests for free, I dont post much on this forum so I thought this would be a good way to start helping the HF community. I have been using photoshop for a few years and cinema 4D for a couple. Post below your request and I will pm you once I have started working on it, first come first serve :)

(sorry for bad spelling, typed on iphone)

Can you post some examples of your work?

CodeJack - April 22, 2012, 4:41 pm

I could if i was at my computer, I will when im next on

Edit: i have some ok work on my youtube (gfxediting) but because those are tutorials they are slightly rushed

Can you make some Userbars for my forums?

If you can make the look similar to these.

With our Initials instead of "RD" make it "MNRS" or "MRS"

These are the ones we need.

Admin, Super mod, Mod, OG, Regular Mem, Graphics, and Sponsor.

Oh and banned.

And T.W.C (Trade with Caution)

If you can kind sir.
