Thread: [\[TUT\]How To Earn Money And Spread Your Virus\[TUT\]](#)

lorens13 - January 22, 2010, 11:47 pm

Hello HF members! Today I am going to show you how to earn money and spread your virus successfully.

A1

1. Create your server (Keyloggers, RATS, Stealers and ETC.)

2. Bind it with fake programs

Fake Programs

4. Upload your file.

5. Search in Google for forums about gaming, security or hacking (don't try to post your infected file on HackForums)

6. Register and login with your account

7. Create a new topic about keygens, security, gaming for hacking or the most common hacks.

For example the thread name would be:

For security:

Kaspersky Keygen or Norton 2010 Keygen

For gaming:

left4dead 2 keygen or Cod Mw2 Keygen

for hacking tools or programs:

Multi-Hacker Tools v 1.0 or TeamPROXi's Website Crasher

For others(Make sure that the thread name will make the reader interested):

Paypal account verifier or Zynga Texas Hold'em chip hack

And so many more

8.Put the screen shots of your fake program that is binded with virus,the descriptions,where to pay,the amount fo the file and the virus scan of the file

Virus Scan exmaple:

You don't have to actually scan your file

Don't worry about your account getting banned because the users who will going to download the file wouldn't find any virus and they would just reply that the file isn't working

A2

1.Create a blog site and post your fake programs there that is binded with another program.Also the details about the file,where to pay, the amount of screen shots,download link and the virus scan of the file(use the virus scan example from A1 no.8)

the file

2.Create a youtube account and login.

3.Create a video of your fake program.

4.Upload your video on youtube

5.Put in the description the site of your blog,because this is where they will found the important details.The title must be according to your fake program(use the titles from A1 no.7 or make sure that the title will be interesting)

6.Use youtube views increaser because if the video only have few views other members will try to ignore it.

8.Post on other sites the link of your blog to where they will found the programs

9.There you go!!!

This is for educational purpose only.

PS:If you put this tutorial on other sites,please make sure that the credits goes to me and the url and sorry for my wrong grammars.

Thanks for reading my tutorial^^
