Thread: [Should i sell or Free giveout |Formgrabber FF/IE/Opera/Chrome/maxthon](#)

TeLneT_ - April 23, 2012, 7:06 am

I had an deal for custom coding over this forum few weeks ago and it was an formgrabber,[full bot source+Panel] will not discuss in much about my client and price as told by him.

But i can share my bot bin [64 kb] along with panel but i can't decide whether to sell or distribute freely

So vote my poll...

Instead of posting images i will soon be posting an video of my formgrabber in action....

Formgrabber successfully grab POST data from Firefox/Internet explorer/Opera/Chrome/Maxthon both http and https. <- Till current available version of browsers.

Works on x64 and x86 Systems [Vista,WinXp,Win7] No drops,injects and hides in taskmgr+regedit+files+msconfig.

Got no filters over panel but its better in that way[it was my client requirement] [but i am free to add filters] ,you will get the whole POST data as illustrated above...:-

Wrong forum mate this should be in the marketplace.

We recommend you take the time to read the [HF Help Documents](#) section. The answer to your questions should be contained in there.

badbrains - April 28, 2012, 6:13 am

that actually seems like a pretty good idea, however i don't into hacking etc, so idk if it exists or not.

shit nevermind i'm too tired to do this shit right now man, i just read your post again.
it's up to you whether you want to sell it or not, but myself, i'd probably give out for free.

Sweat Heart - April 28, 2012, 6:20 am

I'm really interisted in it, if you want to share you should. Because it's cool, to share and shit

Scammer alert, see the thread at <https://hackforums.net/showthread.php?tid=2542899>

@TeLneT, if you are going to respond to this, its very simple for you to redeem yourself and prove us wrong...send the Admin or any highly trusted HF member here a Vouch copy of the FormGrabber which you claim you coded and let them make an independent call.

Simple.

Don't give it out for free, sell it.

dv8er - June 1, 2012, 2:25 am

Yes, I tried to buy it... and then got scammed. I can assure you, the program does not exist.

As I say on the scam report, TeLneT can simply send a vouch copy to Admin and then all will be

laid to rest/.

Tor - June 1, 2012, 2:46 am

If you give it for free please shoot a PM .

dv8er - June 1, 2012, 9:33 pm

Give it away. Just not here. Choose a small HQ community. c:
