Thread: [\[Source\] \[VB.NET\] Folder Lock](#)

AirKode - April 24, 2012, 9:44 pm

So once again I was looking through some old projects and came across this which could be useful for some. I have done some documentation on the code, but it is pretty self explanatory. Keep it noted that this is not completely 'secure', it uses the Class ID method.

All I ask for in return is a thanks and credits if you use the source.

Volgare - April 24, 2012, 9:46 pm

Wow this looks cool will try it out.

Pentagon - April 24, 2012, 10:15 pm

Nice work :)

May I know what is your windows theme aswell ?

Thanks

Drug ballad - April 24, 2012, 11:04 pm

Nice now u can hide folders with porn in LOL

VPN - April 25, 2012, 12:51 am

Going to check out how you done this.

Thanks, sharing is caring.

fillobotto - April 25, 2012, 12:53 am

Nice share, will try to lock my sys32 later lol

Off topic: We have the same beautiful theme

Off topic: We have the same beautiful theme

In the source code, I have implemented measures to prevent you from locking system critical directories.

If i lock a folder, can I lauch a file inside it by the cmd for example or it's fully locked?

AirKode - April 25, 2012, 1:14 am

(Apr 25, 2012 01:03 AM)fillobotto Wrote: [\[CITE\]](#) If i lock a folder, can I launch a file inside it by the cmd for example or it's fully locked?

It is not fully locked, I am working on a way to do so. At the moment you are able to run files via the command line, you just have to add the Class ID to the folder path.

MichalRudas007 - April 26, 2012, 1:01 pm

nice one... tested..working great..

TRkratosX - April 28, 2012, 8:54 pm

this is great thanks a lot !! keep it up

lorens13 - April 28, 2012, 9:56 pm

Gonna try this out, thanks for sharing :)

Zuaro - June 17, 2012, 9:10 am

Downloaded the source, thanks dude!

Seems like something that might be useful, love your work!

+REP!

~Zuaro

Raped - June 17, 2012, 9:16 am

good program actually he just change the folder icon and in folder files ..

tested, good one ;)

Decim - June 17, 2012, 9:19 am

Excuse me OP, is that a windows visual style or is it a vb.net theme?

Either way, could I have it?

RAF97 - June 17, 2012, 9:56 am

Very nice program! :)

Thnaks for the source ;)

Syperus - June 17, 2012, 10:38 am

Thanks for the share. Downloading and checking this out. Curious to see what method was used for this.

Modestep - June 17, 2012, 11:00 am

Soft7 2.0 if I'm not mistaking ;)

@OP, looks nice! Funnily enough if you still have the folder, it turns into the recycle bin. It also gets a recycle bin icon in small previews. I assume that's part of the method? Anyways, good job :)

Importantnotification - June 17, 2012, 11:22 am

Thanks this is cool..will give credit =)

Fuffu - August 18, 2012, 9:40 am

Thanks a lot! Looks very cool! Nicely done. :)

TrackPro+ - August 18, 2012, 2:22 pm

Thank you very much, I like your source code. (:

blackteddy - September 13, 2012, 8:16 pm

I was looking for this. will be usefull for beginners :) Thanks for the share!!!!

scoder - September 19, 2012, 4:56 am

Thanks For Sharing man <3 !!

The Style is so cool..!

xRate - September 19, 2012, 5:28 am

I saw another project like this in this section, looks like he stole it and took credit for it. Let me find the thread ID for you (:

Anli - September 21, 2012, 3:06 am

Hello guys, i want to make something like this, example

i want to make 2 exe file first file which one lock folder and second one which one unlock folder...

also i don't need browse function cause i already know source directory.

Regards,

Anli

li0nsar3c00l - September 21, 2012, 3:18 am

really interested in this. good job airkode

Fayderz - September 21, 2012, 3:49 am

This is pretty interesting, Cain't wait for more just like this!

SoreThroat - September 21, 2012, 7:07 pm

Instead of a Recycle Bin icon. Make it as a lock. Replace the codes to the codes below. Add it below Form1

Private SystemFolderList As New List(Of String) 'Contains a list of system folders, populated in the InitializeSystemList method.

Private ClassID As String = ".{2559a1f2-21d7-11d4-bdaf-00c04f60b9f0}" 'The Class ID of the Recycle Bin (A protected explorer extension).

Private _SelectedPath As String

xGhost- - January 24, 2014, 8:32 pm

been looking around for a folder lock.

thanks

hansbald - January 25, 2014, 2:00 am

Intresting, thanks for the share :)

GreyPhantom - February 15, 2014, 1:00 am

MF Link is dead, any update on this link?

IYS-Security - February 15, 2014, 2:02 am

i think download link down

Newsoftwares.net is dumb fuck.. they think that (OP) Aircode is using their source. although, Its

totally different.

Just to let you guys know.. I have Its source with me.. but I'm not sure, if I can reupload or give it to you, without prior permission of OP.

P.S. - Using OP source. this product was made..

Code <http://www.matrixlocker.com>

For futher questions.. PM me.. ?
