Thread: [\[TUT\] How To Change The Icon Of A File \[TUT\]](#)

Jake Ekaj - April 25, 2012, 11:04 pm

1. Download and extract Resource Hacker. You can find Resource Hacker at their official site here - <http://www.angusj.com/resourcehacker/>

2. Open Resource Hacker (ResHacker.exe)

It should look like this:

[img]<http://img186.imageshack.us/img186/5757/70591419.jpg>[/img]

3. Click File - Open

[img]<http://img13.imageshack.us/img13/5254/49529247.jpg>[/img]

4. Browse and find the file that you want the icon changed on. Click on it, then select Open. For my tutorial, I will be using server.exe

[img]<http://img294.imageshack.us/img294/1893/79487979.jpg>[/img]

5. Now click Action - Replace Icon...

[img]<http://img502.imageshack.us/img502/9458/12453166.jpg>[/img]

6. Click Open file with new icon...

[img]<http://img528.imageshack.us/img528/2518/90115117.jpg>[/img]

7. Browse for the Icon File or Exe File that you would like to set the new Icon as. Select the file and then click Open. For my tutorial, I will be using the Pandora Radio Icon.

[img]<http://img198.imageshack.us/img198/2509/54707557.jpg>[/img]

8. Now click Replace

[img]<http://img706.imageshack.us/img706/5764/76233996.jpg>[/img]

9. Finally click File - Save

[img]<http://img41.imageshack.us/img41/9727/ssssha.jpg>[/img]

10. Your file should now have the new icon you selected as shown below:

[img]<http://img46.imageshack.us/img46/4945/77586100.jpg>[/img]

You have now successfully changed the icon of the file you wanted!

Nice tutorial dude. The only thing I can suggest is, putting the pictures in spoilers.

Good shit, bro.

josh - April 25, 2012, 11:27 pm

Nice tutorial, but I have a question. - Can't you just right click the file and change icon? What are the differences?

Jake Ekaj - April 26, 2012, 1:57 pm

I had no clue you could do that lol

Great Prosperity - April 26, 2012, 2:51 pm

This is a very useful tutorial

Thanks for sharing

No problem, glad you liked it.

iguessthispostwassonowiamfixingthatproblem

Ronnie Coleman - April 27, 2012, 1:39 am

This is just too damn basic and there are thousands of ResHacker tutorials out there, better link them to ResHacker Faqs than trying to make your own.

Jake Ekaj - April 27, 2012, 4:46 pm

I'm sure this tutorial will help at least one person here.

truroxx - May 5, 2012, 2:18 am

this is fu*king great tute bro HATS OFF will be help to noobs

ryck - May 5, 2012, 2:38 am

This is great tutorial mate. Thanks for sharing it. It helped me out.

Jake Ekaj - May 10, 2012, 7:39 am

No problem guys, glad you guys like it

SIM-1562658 - January 12, 2013, 3:16 pm

The tutorial was helpful. Thanks for sharing

anas88 - January 12, 2013, 4:26 pm

But the problem is how to hide .Exe to fake your slave.

There is a lot of ways to do it :)
