Thread: [How my friend made \\$75,000 in 4 months](#)

BerriesandCream - April 26, 2012, 6:21 pm

So one of my old friends he is 15 just posted as his status "Not many 15 year olds can say that they made \$75,000 in 4 months. Shit just got real." I didn't really believe this. But apparently he is the owner of <https://sivcuserservers.com>. Here is how he got this going: "Started a coding group in 2008. Got some friends made a big steam group with about 4000 members closed the group opened a server company in 2010 and bada boom two years later we get investors and go Inc" and now a major SEO company bought their whole network for 3 months, so for 3 months they got paid \$75,000. He is 15 and was one of my closest friends when he went to my school. I cannot get over the fact that he is younger than me and made \$75,000 in 4 months. Now that is one way to make some cash. Just thought I would share this. Enjoy!

Well I'm 16 and I have made \$4000 in 2 months and I thought that was good lol

BerriesandCream - April 26, 2012, 6:25 pm

Haha that is better than what I can make. Congrats though, mind telling me how?

Nice for him, getting into a legitimate business instead of trying get rich quick schemes.
