But, I will say, THANKS FOR THE SHARE! <3

Crooks - April 20, 2010, 2:24 am

render packs are great idk whats inside :) and its great when you are making a signature :)

Echoes - April 20, 2010, 2:40 am

Aw...
This was a really bad download.
Half the renders have blacked outlines, and 10-20 are terribly rendered.
The other half is amazing though.
I wouldn't advise this download.
And this would be a resource pack since you included a few stocks and a random signature O.o

Thanks for sharing, I'm downloading now.
