Hey guys, my old thread got deleted so I am making a new one. I am setting up and helping members with their RATs and Stealers.

Things I can help with:

- Setting Up
- Portforwarding
- Crypting (Not FUD)
- PHP RATs
- Test Installs
- Anything else, just ask

This service will be for any types of members.

UB3Rs and L33Ts come before regular members

I help via Teamviewer and Skype.

Post in the thread or PM me.

If you have any questions for me or need help, contact me:

Skype: cjdufrene
Or Simply PM me!
