Thread: [\\$sharecash/File.ice download/reupload service LR \(CHEAP!\)](#)

Yellow™ - April 28, 2012, 5:17 pm

I will download and/or reupload the file or files of your choice from \$sharecash or File.ice.

I have a dynamic IP and I can change it when need be OR use any of the other few dedicated IPs I have to download your file to help ensure credit.

Please post here or PM me if you are in need of this service and I am sure we could work something out.

Accepted payment methods: LR
(Will take paypal from trusted members.)

(Just so everyone knows, File.ice surveys go a lot smoother/easier than \$sharecash. So if you guys have File.ice surveys I should be able to fill out quite a bit quicker.)

Can you say a price and how much downloads you can do?

This is all manually downloaded and sometimes \$sharecash surveys are messed up so that might limit the amount of downloading I can do.

As for the price, what do you think is fair?

I would like this service but I can only offer PayPal so it's up to you to deem if I'm trustworthy.
