This method requires a bit of work for it to be successful, but it will also keep you traffic for a long time. What I mean by that is, visitors will come back to your site frequently resulting in you making more money. I started reading the method and I figured this could work pretty easily, as a lot of CPA lead methods can be a bit sketchy. I haven't seen this idea in that many e-books as in many, so it has some originality to it as well. I think the author has made a pretty good amount in a short duration of time. Also, saturation is not really an issue here, as you can always figure out an alternate route to get your traffic. Out of a grand score of 10, I would give this ebook an 8.5 out of 10 points. Good work 16inch. This e-book is pretty user friendly, could have a bit more detail in it but nothing someone can't figure out! (May 3, 2012 10:25 PM).dB Wrote: [\[CITE\]](#) I vouch for 16inch! When I first started reading the method, I was thinking about another one of those shitty eBooks where you rely on youtube, twitter, and other social websites, but as I continued to read, I was shocked. I first would like to apologize to the 16inch, the author of this eBook for thinking that this eBook would be similar to other eBooks that are really stupid and common sense. 16inch comes up with an idea that really leads towards to the point of being rich. The only thing that bothers me about this eBook is that you need investments every time you execute the method, every time you invest, you make around \$5 or more but it is well worth it. I am really glad that I received this eBook as I will be making great amount of money with it. Last piece of note, this is a must buy, as I'm 100% sure you will fill up your bank in matters of time.

The quality of information provided by the author was quite impressive. The author was very detailed with their explanation and steps of the method and made sure that most readers will be able to grasp the method.

[img]<http://img641.imageshack.us/img641/4388/easeofuse6.png>[/img]

This method does require some regular set up work / advertising, as well as an investment (ranges from \$2 to \$10 depending on how much money you'd like to make, and what country you're from).

[img]<http://img830.imageshack.us/img830/1315/layout7.png>[/img]

The layout of the eBook was simple and uncomplicated. Plain font size/style/color with well thought out text flow. There were several pictures to help aid the explanation of the method.

[img]<http://img220.imageshack.us/img220/1151/grammar9.png>[/img]

The grammar used was superb! I didn't notice any spelling or grammatical mistakes, good job.

I've heard / read / reviewed methods similar to this, and while the method will still generate income, it's not "private".

Good luck with sales!

The author provides information in an in depth manner, he explains all the steps of the methods one by one in detail.

[img]http://img191.imageshack.us/img191/7673/easeofuse7.png[/img]

The method is fairly easy to implement. The author has provided screenshots of the steps to make the implementation easier for the buyer. The method is semi-autopilot. A certain amount of work is required every day/week. The author mainly focuses on how to monetize from the traffic. However, the part about getting traffic is explained in very little detail. Additionally, it requires a minimum investment of \$2-\$10.

[img]http://img840.imageshack.us/img840/8773/layout8.png[/img]

The layout is plain and simple - black font and a white background. Screenshots are included as and when needed.

[img]http://img220.imageshack.us/img220/1151/grammar9.png[/img]

Quality of grammar is decent. The reader should not face any difficulties in understanding the content.

[img]http://img847.imageshack.us/img847/4037/originality6.png[/img]

This method is not exactly private. Similar methods have been seen in the past in some publicly distributed e-books. However, it still has potential to be monetized from if implemented properly.

Good luck with sales!

Are you required to choose a niche for this to work? If so, how long do your niches last for?

Am I required to use File ice? Or do you suggest a different alternative.

And is the only income from the PPD revenue?

I give you a great niche, and a way to find other great niches. This niche is unsaturated and become saturated, and can last forever. You may use File Ice, as I do, too.

Income can be from adsense if you wish along with PPD.

This answer lies within your CPA Company. Some may decide to cash out at monthly intervals, whereas others at weekly. It depends on which network you participate in.

Yes, this is noob proof in fact. What CPA stands for is Cost Per Action. I teach you a method in which I use to generate a nice income for me on the net. You get leads, which are signups or registrations, etc, and you get paid for it. You can use File Ice, Share Cash or other networks, like CPALead.
