Doesn't look legit. No single piece of evidence given.

Bring out more proof and why would you pay to 2 different accounts that sounds extremely fishy!

Good luck with this scam report. Atleast my report against Mckenzie had evidence. But hey, you will never get a L33T or Ub3r banned. Don't even try.

You need screenshots to prove anything mate.

You have to provide screens as evidence. Take a look at some of the other scam reports.
