If you need to setup a rat read my other guide :] <https://hackforums.net/showthread.php?tid=262141>

Spreading

Do you want to spread you file's but cannot find a good way to do it??

Well then read this guide!!!

[-] Chat Room Method

This is a simple way to spread your file's.

You goto any chat room preferably 321teenchat.com and say "16 F US horny add me on msn namehere@live.com" then get ready for 50+ F/r

Then just S.E then into downloading your file like say.

You:Hey i'm looking to model would you rate me please

Pervert:Whats in it for me?

You:Ill go on cam and bate for you if you do

Pervert:OK!!!

[-] Youtube Method

This is a easy way as well just find a video on that you want to leach and add ok in front of youtube so www.okyoutube.com/videoshithere

Then name the video what you want and in the description add your download and a list of Tags

Use a view generator and tell your friends to comment rate and subscribe!

[-] Torrent Method

Ok goto utorrent click create torrent. Then add your file. Seed it and post on multiple sites. Sorry this is not in depth

[-] Facebook Method

This take's some time.

This is basically what you do, get say 3-10 facebook account's and join groups and make groups name them Facebook Video Chat or something like that and invite all "your" friends with this

```
Code javascript:elms=document.getElementById('friends').getElementsByTagName('li'); for(var fid in elms){if(typeof elms[fid] === 'object'){fs.click(elms[fid]); }}
```

Then make a FacebookVideoChatActivator.exe or w.e and add it to the description.

This could get your Thousands of people.

Another way is to make it the persons status and mass their friends

[-] Forum Method

This is easy. I don't do this but all you have to do is go on a hacking forum's NOT HACKFORUMS PEOPLE! Make a thread claiming to be a ware or hack for example Windows 7 Activator. Then get your friends to be like thanks worked love you <3

Sorry this is not that in depend but i don't really do this so I don't have experience

[-] Omegle Method

Just go in omegle and do the same as you did in Chat Room or just send them the download in there.

Be like OMG A NEW WINDOWS UPDATE YOU GET THIS COOL STUFF"LIST STUFF HERE" GET IT HERE "download link here"

Thank you guy's for reading, This is my first tutorial I hope you like it <3

P.S if you would like to add a part or improve a part please just PM me it and i will be more then happy to add it. If you like the post Rep me <3

Sincerely,

Karma
