MegaTypers Invite Codes!

MegaTypers is a service where you get paid for solving captchas. You can rack up quite a bit of money in just an hour of solving these codes.

So here's how it works, click [this link](#) and sign up. Post here and PM me, then I'll give you the code. I only have 10 as of now. This service is invite only and it's great, so get posting!

You may have the whole code thing confused. 1 code can be used to invite as many people as you want.

I know you can. But you can have up to 10 codes. For some people, 1 code can invite as many people as you want.
