YALE DOCUMENTS

I'm not sure but some of them say that they contain Sensitive information but I don't know if they are not published.

[Yale documents \(Mediafire Link!\)](#)

Please tell me what you think.

TwinBlade - May 3, 2012, 8:47 am

i think that you have used havij..

Havij

HeXagone - May 3, 2012, 8:49 am

sorry to tell you thats nothing :)

HeXagone

Savsal14 - May 3, 2012, 8:49 am

To Twinblade: How did i get the files from yale if it was havij? Also it was not havij for mit too. Havij generates a report in html (I used to use it) and this is not html.

HeXagone

I know it's not something very good but I'm new and I'm trying to become better. Anyway thanks for your post,letting me know what you think (:

Also these are my 1st attempt to hack something big.
