Please tell me can you make PasteBin Bot?

MRJaxel - May 6, 2012, 1:49 pm

I need a advanced php script, ill shoot you the idea:
its a automated css hiring system

You enter wich password you want, rcon password.
You enter a code and press submit
The script will then use a preinstalled server and write that password they choosed, and start the server with de_dust2 on it.
Script Will then open the server and the orderer can play.

Possible?

If so, PM asap!

Vouch, you should definitely code one for him.

andreslbk11 - May 12, 2012, 2:47 pm

Pretty bad guy. He tried to "scam" me really hard. I asked him to code a program that was really simple (making a menu so that's just a few printf lines) and 4 procedures(void) with printf's and scanf's. This is a program that i am doing in the 11 grade which i have a few lines that are wrong. He asked \$100 for it which is pretty absurd as another guy wouldnt take more than \$3 or something. I told him it was absurd and he just deleted me, im glad he did that work for me cause seriously he is "scamming" people undirectly. So if asked you to make a game in C language you would ask \$1k? Get serious man.

#1 I don't see how that is a scam in any way....

#2 you don't like the price... don't buy. I do not force my customers to do anything.

Never accuse somebody of scamming without knowing the meaning of the word. dipshit.

I'm definitely interested, adding you on skype.

DrRaiku - July 3, 2014, 10:53 pm

PM me before adding me on skype..

I'd like to know a little about the projects before adding you.
