Never seen this done before, nor have i ever done it before
Any one want to trade shells?
I Have private and public shell's hard hitting working.
Skype: iunknownv1
Aim: iiamjonezy
HF: PM Me,

All shells traded must be checked with a shell checker before the trade commences (So you trade a more accurate ammount)

Contact me if interested.

so your saying this will happen:

Code I will trade my private udp shells freshly exploited for your used old shells ?
I do not get this, sorry for replying .

Ah its fine, just thought id give it a try and see if any one was interested

~

Code it's like i4i then, trading fresh new installs for old crappy installs, but people still do it ;)
