How do u do the reflection under the logo?

V1sit0r - January 26, 2010, 3:31 am

Quote: How do u do the reflection under the logo?

- Duplicate the layer, Edit > Transform > Flip Vertical, then put it under your current shape
- Then take the Polygonal Lasso Tool, put a Feather of ~40px, and select the half of the second shape, then press Delete. Finally adjust with opacity.
