Thread: [\[Tutorial\] Using enumeration to create symlink possibilites](#)

Mx. - May 5, 2012, 6:34 am

Well, its an really old technique, that still works SO many times, this is a great way to complete symlinking, enjoy :).

Phizo - May 5, 2012, 6:40 am

You're posting some nice tutorials lately, keep it up.

bckslsh - May 5, 2012, 6:44 am

Good shit man.

I've been watching your tuts for the past half hour :p.

Red Dragon_al - May 5, 2012, 6:44 am

nice tuto man i have used this method

Hooded Robin - May 5, 2012, 8:34 am

Great way to bypass user bound restrictions, another good way to highlight why browsers suck too :p

Sw1x - May 5, 2012, 8:54 am

Thanks for this, I've seen some more stuff from you lately, keep it up. =]

-DownFall - May 5, 2012, 4:45 pm

Another great guide, thanks for sharing.

Mx. - May 6, 2012, 12:12 am

Well hope you all learned something from it :P

The Ion - May 6, 2012, 7:59 am

Good tut man keep it up Mx you are back :)

Mx. - May 10, 2012, 1:20 am

Well im back as long people keep posting, if i get 1000's of views without any post again, im just gonna remove them once again, as i did with my older tutorials.

Mx. - December 11, 2013, 6:47 pm

Re-opened it for newer members that didn't see it.

133720 - December 11, 2013, 6:59 pm

Woo!

That is great tut.

Thanks a lot bro.

fandago - *December 13, 2013, 4:20 am*

thank you for the tutorial and thank you for reopening ^^

Mx. - *June 7, 2014, 8:58 pm*

Bumping it up =) so everyone can enjoy the video =).

Freezeo - *June 7, 2014, 10:02 pm*

Thanks for the video tutorial which is the best tool for shell or symlink?
