Thread: [\[HTML\] My First Deface Page \[/HTML\]](#)

TwinBlade - May 8, 2012, 3:32 pm

Hello HF,

So i have been learning HTML coding for a while, am not that much Pro.

But, i tried my best i got the idea from someone else tho.

I have made this simple deface Page Not sure if it is that much good Looking.. Here it is :

[Press me to View the Deface Page.](#)

Rate it 0/10 i hope you Like it,tell me what you think.
thank's for reading my thread.

Use basic HTML, you don't need to go fancy.

Add in some JavaScript just for shits and giggles.
