Thread: [\[Free\] Black Thread Design - My First Design](#)

SimplyNegro - May 8, 2012, 4:08 pm

Hey guys, this is my first thread and I worked on it for a bit. Tell me what you think!

Post below for download!

Oh and the font is [League Gothic](#)

Come on guys I feel so alone in this thread. Also, in case you wonder why there is that space in between product features and about is to hold product shots.

I don't like the background glow of the text but i like the theme of it. I would say lower the glow and it would be a lot nicer. Remember this is just constructive criticism.

There is just so much glowing.

OP, I would like to have it if you have time.
