Thread: [\[UPDATED DAILY/FREQUENTLY\]RichCheetah's Money Making Thread\[UPDATED DAILY/FREQUENTLY\]](#)

Hi all HF members,

In approximately 1 week, after I finish with my IB exams, I will start gathering money. I have my own private method to do this, and this thread is simply showing my earnings every day to HF members, or anyone interested. Throughout life, I have always been interested in cash and I just feel very happy to show them to HF members as I feel it's interesting, for me, to watch someone else make money. With this cash, I will be starting frequent giveaways in the giveaways subsection of HF. I feel that making a thread allows us all to have a common goal of success. It gives me more motivation to show earnings like a family. Anyways, some might wonder why don't I put this thread one week later. I'm just here for the moment to put a list, if you're interested to know more frequent updates, put your name down and I may PM me or whatever about more updated updates. I can guarantee I'll make a lot. And no I'm not doing this for a the rich award or whatever its called. :P Just pure hobby and fun. If Omniscient catches onto this and does give me the award, so be it haha. Anyways, I hope this thread is a very interesting one and we can all benefit from. Wish me luck.

PS: I'm assuming that it's be done before, but I'm serious and for real. I will update with pics, be answering questions, giving away tips, and all kind of goodie goodie. This thread will be updated and will NOT be left alone. :D Never shall I leave any of my starting threads hanging haha rofl. Hope you, after I'm done with IB exams and I started to update this thread with my earnings, enjoy and just have a flying good time.

Thanks,
~RichCheetah~

yup, I'm actually very excited to start. Once I get everything set up (the intial start up does take a while), I can rake thousands easily. There are several purposes to this thread, and one of them is, giving others the idea that making money isn't as hard as it's meant to be, that is, if you know what you're doing.

NEVER GIVE UP. :D

yeah, private methods. just methods that I'm never going to sell, so it's never ever saturated lol.

Exactly. I'm like pro-own methods. I don't like ripping off others b/c of three reasons: 1st, it's morally wrong. ripping. psh. 2. Makes you look bad. i mean, u just follow others. i don't lik ethat. i like standing out. 3. using others methods will get saturated=less money earned.

so all in all, private methods FTW.
