Thread: [Rainbow's RAT Help - FAST & FREE! - Portforward - Full Setup - DC, BS, CG](#)

sophrosyne - May 14, 2012, 7:12 pm

Hello. I will be bringing a quick, trusted, noob friendly support with R.A.Ts.

What you need:

- DarkComet 5.3.1: [HERE](#)
- No-IP DUC & a No-IP account: [HERE](#)
- Port Forwarding Capable Router
- Router Login
- WinRAR or 7ZIP

R.A.Ts I can help with:

- DarkComet
- BlackShades NET
- BlackShades Stealth
- CyberGate
- NetWire
- Imminent Monitor
- jRAT
- More to come as I learn about them.

What I will provide:

- Port forwarding
- Setup
- Find your problems
- Basic Guide
- Will do full guide if enough time

Contact:

- Skype:
 - PM me [here](#).
 - Post a reply with what you need.
- (Preferred you PM me when you add me on Skype)

All help will be provided through TeamViewer.

You can also PM me your TeamViewer details so this way you don't have to use Skype.

Can you PM me iKubla4r . I still haven't picked a rat, and once I do im sure I might need some help. Im debating between turkojan/darkcomet/cybergate. Trying to get opinions on the most stable one, and possibly the best one to get webcam feed...Thanks.

If I were you I would go with DarkComet. It is the most used and very stable. Many people like it and normally upgrade to BlackShades which is \$45.00 I think.

I would go with 5.2 because it has many more features and is better in my opinion.

This whole port forwarding help seems very suspicious on everyones end. The reason im saying this is because all of you require skype and contacting you personally for the help rather than just posting a full fledged tutorial here on the site...
