Sorry for the shitty volume levels. My headset broke and im stuck with the external mic. If its too hard to hear I might re record.

Here is the first teaser: <https://hackforums.net/showthread.php?tid=2482464>

Let me know how you like it, etc etc :)

Last time i compiled the stub it was 100% FUD. That was 3 days ago, and it hasn't be used.

Also, there was 0 encryption and 0 FUD attempts to FUD it. But it was still FUD.

The builder will block certain sites when ran. I just havent implemented that because its still WIP and im not dumb enough to scan my own program there xD

btw, thank you :)

Sorry man, I'm my own cracker :)

I have a lot of experience with .NET cracking. You would be surprised the stuff I have cracked from hf. (i dont release, i crack for self practice)
