Error2012 - May 21, 2012, 9:44 am

By far the worse thread on Hackforums.
You have to Reply in order to get a link

After you reply and wait for the PM you have to Click a Link which will pass you through THREE links of ads in order to download

AFTER you pass the THREE links there is another \$hitcash link to download the password for the Previously Downloaded Link

i sent you a pm of what you should do, and i advice you to stick to what i told you there if you wanna be loved on HF.
or else you're going to find yourself "rep fucked" in no time.
