Sql Injection section is for what?You should search first in there.

Havij is easy.Click & Click & Click & Click.Done.... :P

You shouldn't need much help, it's mostly just pressing about 5 things in total.

Could someone teach me how to manually ?

-iAshez ?

I swear to god:

1. You use Havij
2. You don't know how to use Havij. That's pretty shocking.
3. Wrong section. Should be posted under "SQL Injection attacks" or "Beginner Hacking" or "Hacking Tutorials".
4. Why are you even here if you don't know how to use Havij?!

Good luck!

I must agree, it is kind of weird to not be able to even use Havij.

Also, it shouldn't be posted in "Hacking Tutorials" that's where he should be looking, not posting.

There's several tutorials for Havij (For some reason.) here's one <https://hackforums.net/showthread.php?tid=2267560&highlight=havij>, it also contains SQL Poizon tutorial.

Cheers. ?
