Maybe show us the source code of the bat file? Open it with notepad. .bat extensions could also execute executable files.

Please right click on it and press edit or open with notepad.

Edit would be easier to do.

Copy the code and paste it here.

```
@echo off
echo Cleaning up LogMeIn Rescue Applet folder...
:RemoveFiles
rd /S/Q "C:\Users\MRHappy\AppData\Local\LOGMEI~1\LMIR0001.tmp\" > NUL
:end
del "C:\Users\MRHappy\AppData\Local\LOGMEI~1\LMIR0001.tmp.bat"
del "C:\Users\MRHappy\AppData\Local\LOGMEI~1\LMIR0001.tmp_r.bat"
```
