Info -

The IMF is shut down when it's implicated in the bombing of the Kremlin, causing Ethan Hunt and his new team to go rogue to clear their organization's name.

Opinion -

This film is actually one of the best in the Mission Impossible series. I've watched these films since I was very young and have always enjoyed them. This one features a lot of amazing new gadgets and some pretty decent acting. I do feel it lacked a little action, some parts of it were very boring. Still the film overall has a good story line. I especially like the part in the prison, you'll see what I mean if/when you watch it.

I really like this movie, it has awesome gadgets, and like Vitani's Mate said, the Assasain is hot!
Paula Patton looks very hot in this movie as well, especially when she is in that green dress while they were in India. Let's just say I wasn't listening to the dialogue of the movie during that bit ;)

The best scene in Ghost Protocal was the climbing stuff on the world's tallest building in Dubai.
